DATE 11/25/2023 TIME 7:30am

If an outdoor application, 3 dates must be listed, in chronological order, on which the outdoor application may take place if the preceding date is canceled; and the time the application is scheduled to occur.

DATE / TIME N/A DATE / TIME N/A DATE / TIME N/A

Description of the possible adverse effects of the pesticides as per the Material Safety Data Sheets for the pesticides to be used, if available: (Suspend) Caution! Hazard to humans and domestic animals. Harmful if inhaled. Do not breathe vapors or spray mist. Contact with product may result in transient tingling and reddening of the skin. Remove and wash contaminated clothing before re-use. (ExiteR) NGESTION: May cause gastrointestinal effects, such as nausea, cramps, vomiting and diarrhea. Ingestion of large quantities can result in nervous system effects, such as dizziness, loss of coordination, tremors, and loss of consciousness. Symptoms usually regress with no long-lasting effects. At high oral doses, the type of solvent in this product has caused irreversible damage to the liver and kidney (male only) in rats. These effects are not relevant to humans at occupational levels of exposure. EYES: May cause temporary eye irritation. SKIN: May be irritating to skin. Repeated contact may cause dermatitis.

Pesticide product label instructions and precautions related to Public Safety.

(Suspend) Avoid breathing vapor or spray mist. Contact with product may result in transient tingling and reddening of the skin. Remove contaminated clothing and wash before reuse. (ExiteR) Harmful if swallowed or inhaled. Causes eye irritation. Avoid breathing spray mist. Avoid contact with eyes. Wear protective clothing. Wash skin thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse. When using this product as a space spray in food processing plants, foods should be removed.

REMEMBER: Whenever a non-low impact pesticide is used on school property there is also a Restricted Entry Interval (REI) that begins when the pesticide application ends. This Restricted Entry Interval last for seven hours unless the product label uses NUMERIC LANGUAGE, e.g., 4hours or 12 hours; directing a longer or shorter period of time for Restricted Entry. If the product label does not discuss Restricted Entry the period of time defaults to seven (7) hours.
