The Board shall be the sole judge of acceptability. No "or-equal" goods shall be ordered, delivered, assembled, set-up or utilized until the Board's evaluation is complete. The Board's determination as to equivalency shall be deemed final and absolute.

In the event the Bidder fails to identify and equivalent items, or does not provide sufficient supporting documentation regarding an equivalent product with the bid, it will be presumed and required that the brand name or basis of design goods and services as described in the specifications will be provided.

Requests for such interpretations, to be given consideration, must be received **at least ten (10) business days** prior to the date fixed for the opening

Each Bidder shall ascertain, prior to submitting its bid that it received all Addenda issued and it shall acknowledge their receipt in its bid. Failure of any Bidder to receive any Addenda or interpretation shall not relieve the Bidder from any obligation under its bid as submitted. In addition, a failure on the part of any Bidder to acknowledge receipt of said Addenda may result in disqualification of the entire bid submission. Addenda so issued, shall become part of the Contract Documents.

The price bid for the work of any Contract shall NOT be based in any manner upon oral opinions, or real or alleged instructions of an oral nature, regardless or whether such opinions or instructions are expressed by the Borough or agents or representatives of any of them.

FORM OF CONTRACT

Contracts will be let on the attached Form of Agreement Between Board and Contractor, including supplementary terms and conditions, if any.

The Contract will be subject to all statutory provisions on the matter of Public Works, Public Contracts and Prevailing Rates of Wages under the laws of New Jersey.

LINDEN BOARD OF EDUCATION

Refer to the Standard Form of Agreement between the Board and Contractor for terms and conditions pertaining to liquidated damages and reimbursement of any wages paid by the Board for inspector(s) due to failure to complete the Project within the Contract Time.

Bidder/Contractor further understands and acknowledges that adverse weather conditions and acts and/or omissions of other contractors on the Project may impact the successful bidder's ability to meet the Project milestone dates as set forth in the Project Specifications.

Should any of these events result in a delay in the commencement or progress of any Project Work, the Board shall not be liable to any Contractor or Subcontractor for any damages other than an extension of time for performance under the contract. This Section shall not apply to delays in the Contractor's performance resulting from the Board's negligence, bad faith, active interference, tortious conduct, or other reasons un-contemplated by the parties pursuant to N.J.S.A. 18A:18A-41.

Except with respect to affectional or sexual orientation or gender identity or expression, the contractor will ensure that equal employment opportunity is afforded to such applicants in recruitment and employment, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex. Such equal employment opportunity shall include but not be limited to the following: employment, up-grading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selections for training, including apprenticeship. LINDEN BOARD OF EDUCATION

EXHIBIT B *(continued)*

When hiring or scheduling workers in each construction trade, the contractor or subcontractor agrees to make good faith efforts to employ minority and women workers in each construction trade consistent with the targeted employment goal prescribed by N.J.A.C. 17:27-7.2; provided, however, that the Department of Labor and Workforce Development (LWD), Construction EEO Monitoring Program may, in its discretion, exempt a contractor or subcontractor from compliance with the good faith procedures prescribed by the following provisions, A, B and C, as long as the Department of LWD, Construction EEO Monitoring Program is satisfied that the contractor or subcontractor is employing workers provided by a union which provides evidence, in accordance with standards prescribed by the Department of LWD, Construction EEO Monitoring Program, that its percentage of active “card carrying” members who are minority and women workers is equal to or greater than the targeted employment goal established in accordance with N.J.A.C. 17:27-7.2. The contractor or subcontractor agrees that a good faith effort shall include compliance with the following procedures:

- A) If the contractor has a referral agreement or arrangement with a union for a construction trade, the contractor or subcontractor, shall within three (3) business days of the contract award, seek assurances from the union that it will cooperate with the contractor or subcontractor as it full fills its affirmative action obligations under this contract and in accordance with the rules promulgated by the Treasurer pursuant to N.J.S.A. 10:5-31 et. seq., as supplemented and amended from time to time and the Americans with Disabilities Act. If the contractor or subcontractor is unable to obtain said assurances from the construction trade union at least five (5) business days prior to the commencement of construction work, the contractor or subcontractor agrees to afford equal employment opportunities minority and women workers directly consistent with this chapter. If the contractor or subcontractor’s or subcontractor’s prior experience with a construction trade union, regardless of whether the union has provided said assurances, indicates a significant possibility that the trade union will not refer sufficient minority and women workers consistent with affording equal employment opportunities to minority and women workers directly, consistent with this chapter, by complying with the hiring or scheduling procedures prescribed under (b) below; and the contractor or subcontractor further agrees to take said action immediately if it determines that the union is not referring minority and women workers consistent with the equal employment opportunity goals set forth in the chapter.

- B) If good faith efforts to meet targeted employment goals have not or cannot be met for each construction trade by adhering to the procedures of (a) above, or if the contractor does not have a referral agreement or arrangement with a union for a construction trade, the contractor or subcontractor agrees to take the following actions:
 - (1) To notify the public agency compliance officer, the Department of LWD, Construction EEO Monitoring Program, and minority and women referral organizations listed by the Division pursuant to N.J.A.C. 17:27-5.3, of its workforce needs, and request referral of minority and women workers;

LINDEN BOARD OF EDUCATION

EXHIBIT B *(continued)*

- (2) To notify any minority and women workers who have been listed with it as awaiting available vacancies;
- (3) Prior to commencement of work, to request that the local construction trade union refer minority and women workers to fill job opening, provided the contractor or subcontractor has a referral agreement or arrangement with a union for the construction trade;
- (4) To leave standing requests for additional referral to minority and women workers with the local construction trade union, provided the contractor or subcontractor has a referral agreement or arrangement with a union for the construction trade, the State Training and Employment Service and other approved referral sources un the area;
- (5) If it is necessary to lay off some of the workers in a given trade on construction site, layoffs shall be conducted in compliance with the equal employment opportunity and non-discrimination standards set forth in this regulation, as well as with applicable Federal and State court decisions;
- (6) To adhere to the following procedure when minority and women workers apply or are referred to the contractor or subcontractor;
 - (i) The contractor or subcontractor shall interview the referred minority or woman worker.
 - (ii) If said individuals have never previously received any document or certification signifying a level of qualifications lower than that required in order to perform the work of the construction trade, the contractor or subcontractors shall in good faith determine the qualifications of such individuals. The contractor or subcontractor shall hire or schedule those individuals who satisfy appropriate qualification standards in conformity with the equal employment opportunity and non-discrimination principles set forth in this chapter. However, a contractor or subcontractor shall determine that the individual at least possesses the requisite skills, and experience recognized by a union, apprentice program or a referral agency, provided the referral agency is acceptable to the Department of LWD, Construction EEO Monitoring Program. If necessary, the contractor or subcontractor shall hire or schedule minority and women workers who qualify as trainees pursuant to these rules. All of the requirements, however, are limited by the provisions of (C) below.

LINDEN BOARD OF EDUCATION

EXHIBIT B *(continued)*

- (iii) The name of any interested women or minority individual shall be maintained on a waiting list, and shall be considered for employment as described in (i) above, whenever vacancies occur. At the request of the Department of LWD, Construction EEO Monitoring Program, the contractor shall provide evidence of its good faith efforts to employ women and minorities from the list to fill vacancies.
 - (iv) If, for any reason, said contractor or subcontractor determines that a minority individual or a woman is not qualified or if the individual qualifies as an advanced trainee or apprentice, the contractor or subcontractor shall inform the individual in writing of the reasons for the determination, maintain a copy of the determination in its files, and send a copy to the public agency compliance officer and to the Department of LWD, Construction EEO Monitoring Program.
 - (7) To keep a complete and accurate record of all requests made for the referral of workers in any trade covered by the contract, on forms made available by the Department of LWD, Construction EEO Monitoring Program upon request.
- C) The contractor or subcontractor agrees that nothing contained in (B) above shall preclude the contractor or subcontractor from complying with the union hiring hall or apprenticeship policies in any applicable collective bargaining agreement or union hiring hall arrangement, and, where required by custom or agreement, it shall send journeymen and trainees to the union for referral, or to the apprenticeship program for admission pursuant to such agreement or arrangement. However, where the practice of a union or apprenticeship program for admission, pursuant to such exclusion of minorities and women or the failure to refer minorities consistent with the targeted county employment goal, the contractor or subcontractor shall consider for employment persons referred pursuant to (B) above without regard to such agreement or arrangement; provided further, however, that the contractor or subcontractor shall not be required to employ women or minority advanced trainees and trainees in numbers which result in the employment of advanced trainees and trainees as a percentage of the total workforce for the construction trade, which percentage significantly exceeds the apprentice to journey worker ratio specified in the applicable collective bargaining agreement, or in the absence of a collective bargaining agreement, exceeds the ratio established by practice in the area for said construction trade. Also, the contractor or subcontractor agrees that, in implementing the procedures of (B) above, it shall, where applicable, employ minority and women workers residing within the geographical jurisdiction of the union.

EXHIBIT B *(continued)*

After notification of award, but prior to signing a construction, the contractor shall submit to the public agency compliance officer and the Department of LWD, Construction EEO Monitoring Program an initial project workforce report (Form AA201) electronically provided to the public agency by the Department of LWD, Construction EEO Monitoring Program, through its website, for distribution to and completion by the contractor, in accordance the N.J.A.C.17:27-7.

MAINTENANCE AND REPAIR WORK, TIME AND MATERIAL RATES FOR VARIOUS TRADES I – 2023-2024

1. TIME CHARGES

ESTIMATED HOURS is the Owner's estimate of hours, which may be required for each type of workman shown under TRADE CHARGE PER HOUR is the bid charge in amounts per hour to Owner for work by qualified workman (licensed where required by law or regulation) of type shown. CHARGE PER HOUR includes all necessary tools, vehicles, equipment, payroll, taxes, fringe benefits, other overhead, and profit. **Actual hours under the contract may be more or less than the Estimated Hours, and the Contractor will be reimbursed for all authorized hours at the Bid Charge Per Hour.**

TIME CHARGES are the products of ESTIMATED HOURS X CHARGE PER HOUR for each TRADE.

2. MATERIAL CHARGES

ESTIMATED CONTRACTOR'S cost is Owner's estimate of costs of materials which Contractor may be required to furnish under each Contract. ESTIMATED CONTRACTOR'S COST is Contractor's actual cost of such materials, FOB Contractor's shop. MARKUP is the bid markup for Bidder's handling, storage, delivery, other overhead, and profit. Bidder proposes to furnish all materials required at Bidder's actual cost plus a percentage equal to the MARKUP percentage shown (which equals MARKUP/ESTIMATED CONTRACTOR'S COST on the line above). Actual cost of the material under the contract may be more or less than the Estimated Contractor's Cost, and the Contractor will be reimbursed for all authorized material costs at the bid MARKUP.

3. CONTRACT ESTIMATED TOTAL CHARGES

Actual hours and actual materials required to be furnished under the contract may be more or less than the amounts shown. CONTRACT ESTIMATED TOTAL CHARGES is the sum of TIME CHARGES PLUS MATERIALS CHARGE times the estimated hours and materials shown.

4. BID PRICE EVALUATION

Bidder understands that bid price evaluation will be based on the Owner's Estimated Hours and the Owner's Estimated Contractor's Cost for materials and the bidder's Charges per Hour and Bidder's Markup Material % without regard for any errors made by the Bidder in tabulating other entrees on the bid forms.
